Product designer with **8+ years** designing SaaS platforms, fintech, mobile and desktop apps across six markets: the US, Canada, the UK, France, the UAE and Morocco. I work as a product partner: I start from the user problem and the metric we need to move, then take it through research, flows and prototypes to tested UI and the design system engineering builds from.

8+ yrs
designing SaaS, fintech and mobile products

+40%
user retention at Topple, 6 months after launch

+15%
conversion and −30% drop-off after the Fortunian redesign

6 markets
US, Canada, UK, France, UAE and Morocco

HOW I WORK WITH PRODUCT TEAMS

Problem and metric first
I align with the PM on the user problem, the goal and the constraints before drawing a screen.

Evidence over opinion
Interviews, usability tests, A/B tests and analytics decide between options, not taste.

Prototype to decide
Interactive prototypes test ideas with users and align stakeholders before engineering time is spent.

Designed to ship
Design systems, clear specs and close work with engineers, so what ships matches what was designed.

EXPERIENCE

BlackStone eIT · Dubai, UAE · Remote — Sep 2022 – Present

Product Designer — Feb 2023 – Present
Senior UX/UI Designer — Sep 2022 – Feb 2023

- Partner with product managers, engineers and stakeholders from discovery to delivery, so each design balances the user need, the business goal and what engineering can ship.
- Find and fix usability problems with user research, A/B tests and heuristic evaluations.
- Restructure navigation and content so users find features faster and understand where they are.
- Lead brainstorming, wireframing and prototyping sessions to explore options before committing build time.
- Apply usability principles and accessibility guidelines so products work for a wide range of users.

Fortunian · United States · Remote — Jan 2021 – Sep 2022

Senior UX/UI Designer

- IMPACT Redesigned the product's key screens: **+15% conversion** and **−30% user drop-off**.
- Built and scaled the design system that kept the products consistent and made handoff to engineering faster.
- Ran the loop from user research to wireframes, Figma prototypes and usability tests, iterating on what users struggled with.
- Worked with product managers and engineers to align on vision, strategy and execution; delivered high-fidelity, pixel-perfect UI.

Topple · United States · Remote · Contract — Feb 2020 – Jan 2022

Product Designer

A self-serve digital advertising platform built so buying ads is as easy as ordering a ride.

- IMPACT **+40% user retention** within the first 6 months after launch, through a user-centred design approach.
- Designed the platform end to end, from ideation to launch; it went on to become one of the leading platforms of its kind in the US.
- Ran user interviews and surveys, and combined them with product data to decide what to build and how.
- Tested user flows with wireframes and interactive prototypes before development, and built scalable UI components for future features.

Feel and Clic · Paris, France · On-site — Aug 2018 – Jul 2021

UI/UX Designer

- Designed a consistent interface across the whole product, and the UI kit and design system that made developer handoff smoother.
- Explored several visual directions per brief and presented the rationale to internal teams and clients.
- Worked with product managers, engineers and marketing to align design decisions with business strategy and user needs.

SELECTED CASE STUDIES · BERRAISSOUL.COM

Euka

View case study ↗

Web app · Creator commerce for TikTok Shop brands

Helps brands turn creators into a sales channel: AI creator search, outreach and sample automation, an affiliate CRM and sales analytics.

Designed end to end, from onboarding to every core workflow, plus the design system underneath.

UGC University

View case study ↗

Web app · Creator education

Trains creators to make content brands pay for: pick a coach, film real assignments, get reviewed, then graduate into paid partnerships.

Designed the learning platform end to end, including the review loop, levels and streaks, and the marketing site.

SKILLS

Product & research
User research, usability testing, A/B testing, heuristic evaluation, design sprints

Design
Information architecture, user flows, wireframing, interactive prototyping, interaction & micro-interactions, UI design, accessibility

Systems & delivery
Design systems, UI kits, design guidelines, developer handoff

Tools
Figma, ProtoPie, Principle, Sketch, InVision, Overflow, Photoshop, Illustrator, After Effects

Domains
SaaS, fintech, ad tech, creator commerce, mobile and desktop apps

EDUCATION & CERTIFICATES

Human-Computer Interaction (HCI)
Interaction Design Foundation · In progress

Google UX Design Professional Certificate
Google

Professional Diploma, Web Development & Web Design
University of Minnesota · Human Factors and Ergonomics · 2014 – 2016

Bachelor's degree, Economic & Social Sciences
Cadi Ayyad University · 2012 – 2014
